OUR TERMS

All prices in this list, unless otherwise stated, are F.O.B. our warehouse, Cocoa, Florida, or F.O.B. port of entry if shipped direct from the port.

Orders that reach us before July 15 for Imported Holland Bulbs will be packed to order in Holland and shipped direct from port of entry to assure prompt delivery. Direct shipments from port cannot be made on Dutch Iris, Royal Dutch Amaryllis and other items which must be repacked and shipped from our warehouse.

Packing units and minimum quantities at regular wholesale prices are given on each item in this price list. Less than minimum quantities ordered will be charged at regular prices plus 10% for special packing.

Our prices on Imported Bulbs include all charges such as sea freight, duty, packing, insurance and dock charges.

Terms: 2% ten days, net 30 days to our established accounts and new accounts with satisfactory credit rating and references. 3% discount if cash is sent with order.

PROMOTIONAL MATERIAL — FREE

Beautiful color pictures are furnished free of extra cost on all items ordered in bulk, if ordered in minimum and over-minimum wholesale quantities. Booklets, counter cards, posters, window streamers, newspaper advertising mats and other materials will be furnished without cost to you through Associated Bulb Growers of Holland.

ORDER EARLY

It will pay you to order your requirements early. Order standard assortments or assortments to your own specifications. If you place your order early you will be sure of getting exactly what you want, when you want it.

LILUM LONGIFLORUM (*Easter Lily*)

This is the familiar large, white, trumpet-shaped Easter Lily as pictured. In the mild climates of the South they are planted extensively outdoors late in the summer or early fall. Elsewhere they can be grown indoors in pots—usually one bulb to a six inch pot—and kept in a cool, dark place until root system has developed and top growth begins to appear; they can then be brought into full light. Available in the following types:

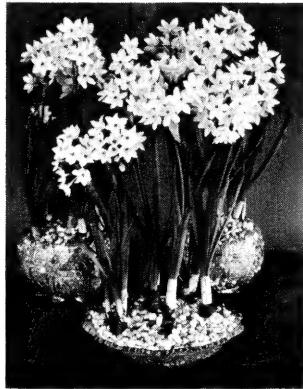

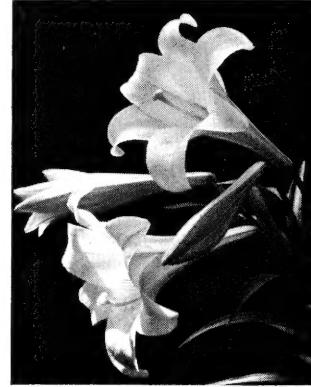

LILUM ERABU: Delivery August 15 to November 15.

MINIMUM ORDER: 100 bulbs or case lots.

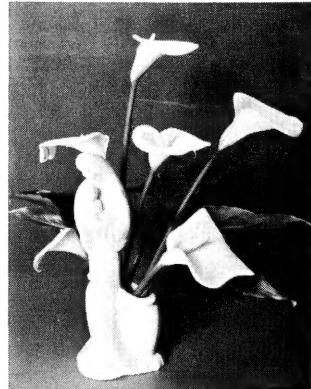

PAPERWHITE NARCISSUS

The Paperwhite is the most popular of the tender Polyanthus or Cluster Narcissus. Growing bulbs in water in a thin layer of gravel, stones or chips is a favorite way of flowering them. In mild climates they also flourish outdoors.

CALLA AETHIOPICA (*white*)

Most widely known of the Calla family, Calla Aethiopica produces large, white waxy blooms as pictured, on stems up to 2 1/2 feet. The leaves are a rich green, large and smooth, making a beautiful setting for the showy blooms. The white Calla is widely grown in pots for indoor blooms; also as a perennial outdoors in mild climates, and in the North for summer blooms in the garden. The bulbs can be potted as soon as available or stored and planted directly outdoors after frost danger. Callas like rich, moist soil.

IMPORTED

Royal Dutch AMARYLLIS

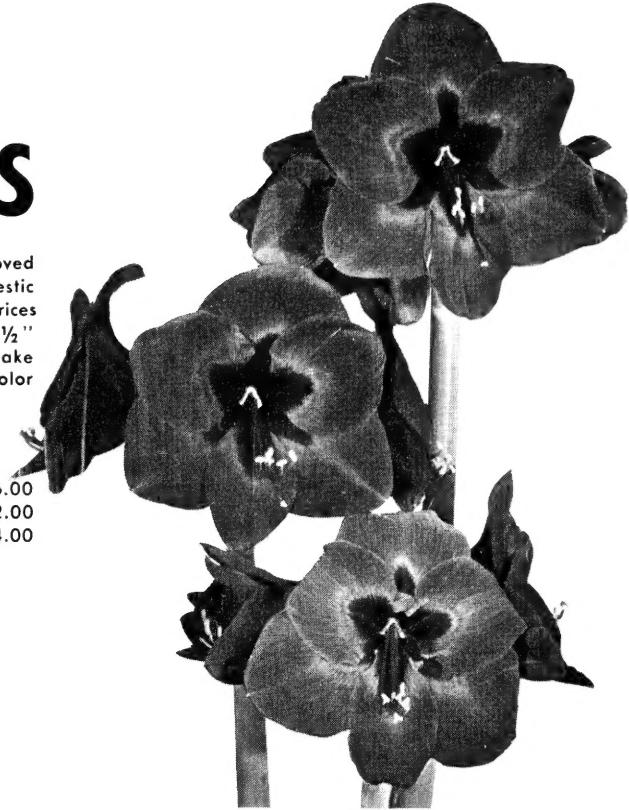

Widely publicized in the flower magazines and general publications, the new, improved Dutch Hybrid Amaryllis (Hippeastrum) are in good demand. For their mammoth, majestic blooms, up to 8" across, and superb color and form, they easily justify the premium prices which they command. The mammoth size bulbs which we import, measuring full 3 1/4"-3 1/2" in diameter, make several blooms to the stem and usually two stems per bulb. They make a truly sensational pot plant and the blooms are long lasting. Available in named color varieties as listed below.

Giant Hybrid Meade Strain

AMERICAN-GROWN AMARYLLIS

The American-grown Meade Strain of Amaryllis (Hippeastrum) makes gorgeous giant blooms in colors ranging from near white (with pencil striping) through various shades of pink to deepest reds and candy stripes. They are used extensively in the South for outdoor planting and they are popular bulbs in the North for indoor growing in pots. For indoor flowering, the bulbs should be potted in a mixture of fibrous loam, leafmold and sand, with liquid manure applied during the blooming period. They may be potted as soon as available, with the shoulder of the bulb protruding from the soil. If kept at a fairly even temperature of 65° F. they will develop a good vigorous root system. When the weather warms and after blooming, the potted plant can be placed in the soil outdoors and taken in again in the fall for flowering indoors. In mild climates bulbs may be kept outdoors in the ground from season to season; elsewhere they must be lifted and stored in dry sand through the winter.

LYCORIS Magic Lily of Orient

Lycoris is considered one of the rarest and most beautiful of bulbous flowers. The leaves appear early in the spring, then die down and are followed in summer by large clusters of lily-like flowers, pleasantly perfumed. L. Squamigera, sometimes listed as Amaryllis hallii, also called the Mystery Lily, has fragrant blossoms of lavender rose. This is the most hardy and best known. L. Aurea, Golden Spider Lily or Hurricane Lily, produces bright, orange-yellow blossoms and is best adapted for outdoor growing in the lower South but can be grown elsewhere under glass or with winter protection. L. Radiata, Red Spider Lily or Guernsey Lily, well known in the Gulf Coast region, is often treated as a pot plant. It produces small bright red blossoms in clusters.

ALL STOCKS TRAVEL AT RISK OF PURCHASER. Stocks are carefully packed and we hold good order receipts from the carrier agent. If shipment arrives in poor condition, it should be accepted "in bad order" and claim should be brought against the carrier for damage.

We take pride in shipping only such stock as should perform to entire satisfaction. However, we give no warranty, expressed or implied, as to purity, description, quality, productiveness or any other matter of any bulbs, roots and tubers we send out, and we will not be in any way responsible for the crop. In no case will our liability exceed the amount of the purchase price. If the purchaser does not accept the goods on these terms they must be RETURNED WITHIN THREE DAYS AFTER RECEIPT. Prices are subject to change without notice. Orders are accepted subject to prior sale and cancellation in case of crop failure and other conditions beyond our control.

Our "Blue Ribbon" PACKAGED ROSEBUSHES

Two-Year-Old Texas Field-Grown Bushes

Processed and Packed Expressly for Us in
Blue Ribbon Bag with Full Color Label

Our "Blue Ribbon" Rosebush is a heavy, select 2-year-old field-grown bush, well balanced and well branched, with good root system. This plant has a minimum of three heavy canes pruned to length 16" to 18". Roots are packed in best known moisture retaining materials, wrapped in polyethylene sheet, and then inserted in an attractive "Blue Ribbon" bag. This improved type of root-wrapping greatly increases the shelf life of the bush. A 3" x 5" full color picture on the bag identifies the color variety.
